Gold Sponsor

The Indigenous Institutes Consortium (IIC) represents the collective and collaborative efforts of its seven Indigenous-owned and operated post-secondary education, training, and lifelong learning institutions across Ontario. Since 1994, the IIC has been providing support to Indigenous Institutes, raising awareness, and profiles of its Member Indigenous institutions, learners, and communities. Indigenous Institutes are deeply committed to preserving and strengthening Indigenous languages, traditions, and culture, and play essential roles in the promotion of cultural learning, language acquisition, and building a strong local workforce.

Silver Sponsor

Learnful is an Ontario-based education technology team creating custom software solutions for teaching, learning, and research. Our newest platform, Axiom AI, enables educators to build AI assistants from their course materials, supporting student engagement, collaboration, and analytics. Based in Waterloo since 2021, we have built and supported tools you know and love, including H5P Studio. We partner with institutions to deliver secure, adaptable solutions that can be deployed locally within their own networks, helping educators and learners benefit from innovative technology without sacrificing privacy or control.

Silver Sponsor

The Ontario Council on Articulation and Transfer (ONCAT) puts learners first by making it easier to navigate and succeed in Ontario's postsecondary system. ONCAT manages ONTransfer.ca, a trusted resource for exploring pathways and transfer options across colleges, universities, and Indigenous Institutes. As a convener and sector partner, ONCAT collaborates with institutions to advance learner mobility and recognition of prior and non-formal learning. We support pathway development and streamlined credit transfer, while fostering innovation through shared tools, project-based funding, research, and the exchange of best practices. Funded by the Government of Ontario, ONCAT is building a more seamless, student-centred postsecondary system.

Welcome to eCampusOntario's

Technology and Education Seminar and Showcase (TESS)

Reinventing Education for a Resilient Future

Postsecondary education in Canada is at a critical inflection point, with significant global and domestic changes requiring the redefinition of our approach to teaching and learning. This necessity offers educators not only a challenge, but an unparalleled opportunity to reinvent pedagogies that better support learner success. TESS 2025 will explore these opportunities for innovative practical solutions that provide educators, institutions and learners with the tools they need to thrive in a transitional future.

The Technology and Education Seminar and Showcase (TESS) Conference has been eCampusOntario's annual flagship event since 2016.

About eCampusOntario

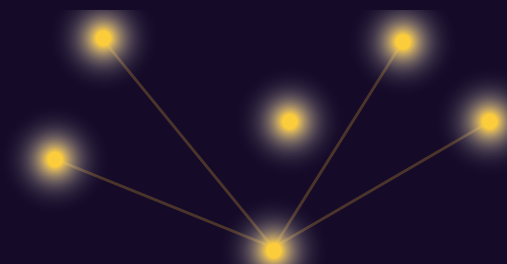

eCampusOntario is a not-for-profit organization that accelerates the transformation of postsecondary digital learning in Ontario to increase participation in higher education. eCampusOntario leads a consortium of the province's publicly-assisted colleges, universities and Indigenous institutes to advance the development and adoption of online and digital learning technologies, programs and environments.

Land Acknowledgement

We acknowledge the land we are meeting on across Ontario. The eCampusOntario offices are located on the traditional territory of many nations including the Mississaugas of the Credit, the Anishnabeg, the Chippewa, the Haudenosaunee and the Wendat peoples and is now home to many diverse First Nations, Inuit and Métis peoples. We also acknowledge that land is covered by Treaty 13 with the Mississaugas of the Credit.

// Conference Tracks

Sessions will focus on five guiding themes that are vital to thrive in a transitional future.

The Learner Experience

Emerging Technology

The Resilient Workforce

Innovations in Teaching and Learning

Partnerships and Policies

Session Types

- **Workshops** – Interactive collaborative learning session focused on learning a particular skill or technique
- **Panel Discussion** – 3 to 4 panelists and one moderator speak to a specific topic impacting the sector today
- **Presentations** – 20 min presentation and 10 min Q&A
- **Symposium** – 10 min presentation on a specific topic. Three of these sessions will be grouped together by topic. There will be a 15 minute collaborative Q&A

// Featured Presenters:

Special Guests

Ogiima Kwe, Chief Claire Sault

Mississaugas of the Credit First Nation

Claire Sault was elected Chief on December 9, 2023, and served on the Mississaugas of the Credit Council through a bi-election since October 22, 2022. She formerly worked as the CEO of Northwind Business Development, a company wholly owned by Caldwell First Nation. Prior, Chief Sault served as the CEO for Kettle & Stony Point First Nation Administration with a large staff. During the Covid pandemic, Ms. Sault worked in a consulting capacity and prior to that, served as CEO of Noozhoo Nokiyen Limited Partnership owned by the Mississaugas of Scugog Island First Nation. She was the President of a non-profit in California called Divine Choices and Vice President and Director of Human Resources for a large public company and its subsidiary called First American Trust. Both, in the United States.

She was born and raised on the Mississaugas of the Credit First Nation with deep roots and strong ties to her mother's First Nation (Six Nations) as well.

After returning to Canada, she functioned in various consultative capacities including working with a First Nation in Saskatchewan. Prior to moving to the United States though, she gained experience within various Aboriginal agencies, including tourism, addictions treatment, First Nation governments and various service organizations. As President of a non-profit and services company, from 2007 through 2013; she travelled extensively promoting the mission and cause of child sexual abuse prevention through public speaking engagements, social media, and TV commercials.

She's also an author and co-author of various papers, teaching materials and a book called "The Lie That Binds". Ms. Sault received a master's degree in business administration from Simon Fraser University with her focus on Aboriginal Business and Leadership.

Her background provides a broad expertise in business and financial management and more importantly, an understanding of the Indigenous way of life.

Ms. Sault is the second youngest of a large family and resides on the Mississaugas of the Credit First Nation.

Special Guest

Deputy Minister, David Wai

Ministry of Colleges and Universities, Research Excellence and Security

David Wai became Deputy Minister of Colleges and Universities in June 2023. He was previously the Deputy Minister of Citizenship and Multiculturalism, a role he began in October 2021.

David has held a number of executive positions in the Ontario Public Service, including the Assistant Deputy Minister of Health, Social, Education and Children's Policy at Cabinet Office where he supported the Health and Social Policy Cabinet Committee as well as the Central Coordination Table. As the Assistant Deputy Minister of Financial Services Policy at the Ministry of Finance (MOF), he led the creation and launch of the Financial Services Regulatory Authority of Ontario and led regulatory policy in financial services sectors such as capital markets and insurance. He has also held senior positions in economic development, trade and pensions. He is passionate about building a more diverse and inclusive workplace and led the MOF Inclusion Committee during his time at MOF.

Prior to joining the Ontario Public Service, David worked in the capital markets industry with Fiera Capital and RBC and in management consulting with Deloitte. He holds a Chartered Financial Analyst (CFA) designation, is a Professional Engineer (P.Eng.) and holds degrees in Engineering Physics and Economics.

Dr. Lynn Wells

President and Vice-Chancellor, Laurentian University

Dr. Lynn Wells is a Canadian scholar, teacher and university leader, with nearly 20 years of experience in senior academic leadership positions. In April 2024, Dr. Wells became the 12th President and Vice-Chancellor of Laurentian University, located in Sudbury, Ontario, Canada. Prior to her recent appointment, Dr. Wells served as Provost and Vice-President Academic at Brock University from 2020 to 2023, where she also held a concurrent appointment as Interim President and Vice-Chancellor for fifteen months. Prior to 2020, she was the inaugural Associate Vice-President, Students and Teaching at MacEwan University in Edmonton and held senior positions at the University of Regina, including Acting Dean of the Faculty of Arts and Associate Vice-President Academic. For seven years, Dr. Wells worked directly with Indigenous people and communities through her service as Vice-President Academic and Special Advisor to the President at First Nations University of Canada. As a leader, Dr. Wells has demonstrated her commitment to key issues such as national reconciliation, equity, diversity, inclusion, and accessibility. Dr. Wells is a respected scholar in her field of Contemporary British Fiction, having published two books and numerous articles. She holds a Master's in English and a B.A. Honours (summa cum laude) in English and French Studies from York University, along with a PhD in English from Western University. As a professor, she held tenured roles for 20 years at Brock, MacEwan, FNU, and the University of Regina. Despite her busy administrative career, she has continued her passion for scholarship, actively teaching and publishing peer-reviewed work and presenting at academic conferences in Canada and England. She is a highly regarded scholar, having authored multiple articles on contemporary British fiction as well two books, the most recent of which is on the prominent writer Ian McEwan, on whom she is an internationally recognized expert.

Special Guest

Rebecca Jamieson

President and CEO, Six Nations Polytechnic

Rebecca Jamieson, Tuscarora Nation, Eel Clan, is the President-CEO Six Nations Polytechnic. Rebecca is a distinguished and recognized leader in Indigenous education in Ontario and Canada, and an influential champion for the preservation of Indigenous languages. As CEO and President of Six Nations Polytechnic since 2009, she has had a transformational impact on her institution, her community and on post-secondary education in Ontario. Rebecca has been involved at all levels of First Nations education in a wide range of roles including teaching, counselling, policy, curriculum and institutional research and development.

Rebecca holds an undergraduate degree in psychology and philosophy from Wilfrid Laurier University and a Master of Education from the University of Toronto. Rebecca is a member of the College of Teachers and holds Supervisory Officers Qualifications. She is trained in mediation and alternative dispute resolution and is a Graduate of the Carver Institute, Policy Governance.

Rebecca serves as Chair of the Indigenous Institutes Consortium (Ontario), the National Association of Indigenous Institutes and the Six Nations Language Commission. She is a board member of National Indigenous Accreditation Board, the World Indigenous Nations Higher Education Consortium Board of Accreditation and CICan (Colleges and Institutes Canada). Acknowledgements of Rebecca's contributions include honorary doctorates from Western University and Laurier University, Honorary Applied Degree from Niagara College, Six Nations Community Treasure, Dreamcatcher Foundation Education Award, David Baxter Memorial for Outstanding Individual Achievement, Order of Ontario and the Order of Canada.

Dr. Ann Marie Vaughan

President and CEO, Humber Polytechnic

Dr. Ann Marie Vaughan is a distinguished senior executive with more than 30 years of leadership experience in higher education. She currently serves as President and CEO of Humber Polytechnic and is the first woman to hold this role. Prior to this, Dr. Vaughan was President and CEO of Loyalist College and the College of the North Atlantic.

Throughout her career, Dr. Vaughan has championed innovation in the evolving energy sector and has a proven track record of supporting talent development, applied research, and technological advancement. A passionate advocate for expanding access to

education as a catalyst for social and economic development, she serves as Chair of the eCampus Ontario Board of Directors and of Colleges Ontario's Committee of Presidents. Dr. Vaughan is also the Ontario Representative on the Colleges and Institutes Canada Board of Directors and a Board Member of Skills Ontario. She previously served as Honorary Colonel with the Royal Canadian Air Force, 426 Training Squadron.

Dr. Vaughan began her career in student leadership, sparking a lifelong commitment to transforming lives through learning. She holds a Bachelor of Arts and Bachelor of Education from Memorial University, a Master of Arts in Higher Education from the University of British Columbia, and a Doctorate in Higher Education Leadership from the University of Calgary.

Keynotes

Danielle Goldfarb

Senior Fellow, Munk School of Global Affairs and Public Policy and Centre for International Governance Innovation

Danielle Goldfarb is an advisor and expert on the digital economy, real-time data, trade, and public policy. Danielle's TEDx talk, "The Smartest Way to Predict the Future", is on using new technologies to expand data coverage and improve prediction. She is a senior fellow at the Centre for International Governance Innovation and the Munk School of Global Affairs and Public Policy and a distinguished fellow at the Asia Pacific Foundation of Canada. Danielle is a co-author of the 2025 International AI Safety Report, co-director of the Canadian AI Adoption Initiative and the author of Digital Data and Advanced AI for Richer Global Intelligence. Danielle was previously strategic advisor on public policy to Mila-Quebec Artificial Intelligence Institute, a global fellow at the Wilson Center Canada Institute, VP and research director at Real-Time Interactive Worldwide Intelligence, and led research programs at the C.D. Howe Institute and the Conference Board of Canada. Danielle holds a Master of Philosophy in international relations from the University of Cambridge and a Bachelor of Commerce in honours economics from McGill University.

Dr. Andre De Freitas

AI Architect & Education Strategist

Dr. Andre De Freitas is a pioneering education strategist, AI architect, and professor dedicated to transforming the way institutions and learners engage with knowledge. As the founder and CEO of EdVisingU, he leads innovative projects that integrate artificial intelligence into higher education, focusing on AI-powered learning ecosystems, micro-credential programs, and equity-driven student services.

Host

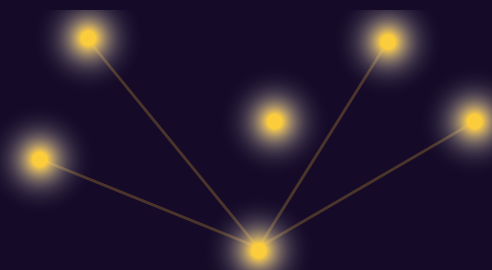

Darian Kovacs

Author, Founder, Speaker, Jelly Academy

Darian is the Métis founder of Vancouver based PR, digital ads & SEO company Jelly Digital Marketing & PR and digital literacy and marketing school, Jelly Academy and a partner with the Spark Agency Group collective. He is the host of the podcast Métis Speaker Series and loves doing workshops. He volunteers on the board of the Digital Marketing Sector Council, ISET National Gathering, NPower Canada and his local Metis charter community - Waceya.

He is the editor of IndigenousSME Magazine and freelances with publications like BCBusiness, Future Economy, Globe & Mail, Forbes and Entrepreneur magazine. His recent book Marketing Mentors features interviews with Seth Godin, Guy Kawasaki and marketing leads from LEGO, Lululemon and Starbucks. Most recently he helped launch an Indigenous language in the Roblox ecosystem for K-12 learners. Darian lives in Fort Langley, BC with his wife and four children and likes to mountain bike, sauna, swim, grow dahlias and watercolour and read YA novels in his free time.

Student Panel: Shaping the Future of AI in Education

Join us for an insightful and engaging student panel that explores the intersections of artificial intelligence, empowerment, and educational innovation. Moderated by EdVisingU CEO Dr. Andre De Freitas, this panel brings together student voices to discuss the evolving landscape of higher education in the digital era. Panelists will share personal narratives, challenges overcome, and the transformative power of AI as both a tool and a catalyst for growth. From reimagining traditional classrooms and fostering academic honesty to ensuring equitable access and participation in AI policymaking, the conversation will highlight how students are not just adapting to change but actively shaping the future of learning. This event offers a unique opportunity to learn from the next generation of leaders, discover strategies for success, and connect with a community committed to growth, achievement, and the responsible integration of technology in education.

- **Dr. Andre De Freitas**, AI Architect & Education Strategist

Wednesday November 12, 2025 | 10:00 am – 10:45 am

The Next Generation of Public Interest Intelligence: Using New Tools to Confront the AI, Data, and Trade Shocks

Students, educators, and leaders across Canada are grappling with many shocks at once. The ubiquitous use of ChatGPT is raising deep concerns for educators and students including those about to enter the work force. The trade and tariff whiplash under Trump 2.0 has created major uncertainty and forced Canadians to reconsider long-held assumptions. Add to this list many other shocks including the climate crisis, a massive geopolitical recalibration, and a purge of evidence and government data not only in China and Russia but also in the United States.

This moment of overlapping shocks is also one of opportunity. The stunning advances in AI now available to anyone—including non-experts—combined with the world's largest dataset ever provides an opportunity to create the next generation of public interest intelligence. We have the tools to create a much deeper and richer understanding of the world and to better zero in on solutions.

This talk explores both these risks and the new possibilities, using real-world examples and classroom experiments. These include using AI, sensors, and satellite images to monitor the Arctic as the US stops collecting key weather data and using digital tools and AI to anticipate and reroute trade disruptions as Canada can no longer count on free trade. The talk also asks how educators can prepare students not only to use these tools but to challenge them and use them to advance the greater public good, by drawing on experiments in which students deliberately mislead generative AI or where they successfully use it to expand what is possible beyond traditional policy and research. The goal is to consider the step change now possible to advance the public interest in the face of major disruption.

- **Danielle Goldfarb**, Senior Fellow, Munk School of Global Affairs and Public Policy and Centre for International Governance Innovation
