## SUMMIT 2026

### Tomorrow's Skills

Since 2017, eCampusOntario has led the development and growth of alternative recognition models for learning using micro-credentials. Micro-credentials are rapid training programs that allow learners to develop the skills that employers need.

This year, the ninth annual Micro-credential Summit organized by eCampusOntario will take place February 11-12, 2026, at The Quay in Toronto. Micro-credential Summit 2026: Tomorrow's Skills will explore the future of micro-credentials and their role in transforming skills pathways and workforce development. The Summit will highlight how postsecondary institutions and industry partners are equipping Ontario's workers and businesses with the tools and talent they need to thrive in the age of artificial intelligence.
